

Boosting the Circular economy skills of the EU services Labor force

July 2021

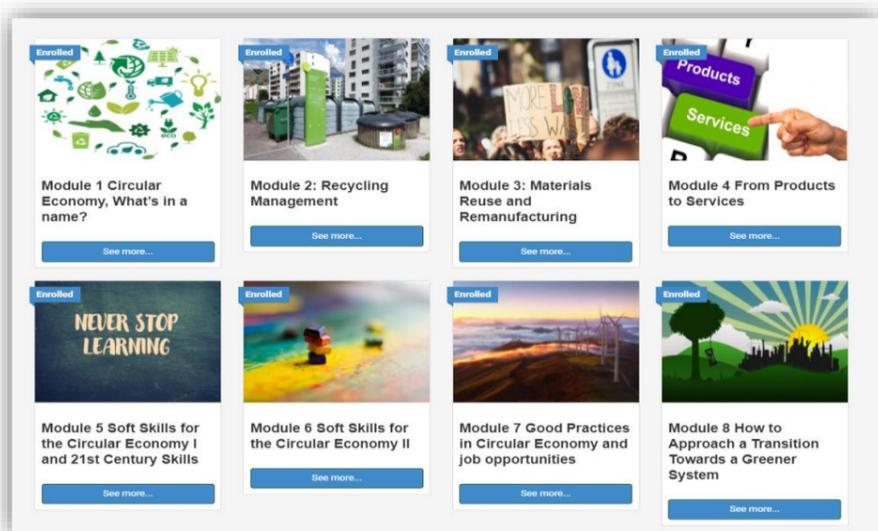

Newsletter 3

Training activity

On June 7th-11th, 2020, the partners participated in an online training activity in order to build capacity on the delivery of the CICLO training material. The partners participated actively and shared their national realities.

CICLO Multifunctional and Interactive Platform

CICLO is very happy to announce the launch of its [platform in English](#). We invite you to be registered and enjoy **cost-free at your own space, pace and time**, the material which will help you develop **basic job-related circular economy skills**. The platform of CICLO offers the possibility to **get certification** according to the European Qualifications Framework. Have a look at the 8 modules of CICLO found on the platform:

E-books

In this newsletter, we present the experience of Magenta Consultoría from Spain, who led the development of CICLO's **1st e-book**, which presents analytically the **current state of circular economy in EU**, discusses the **gaps in circular economy trainings** and provides suggestions. In addition, it **presents good implementation CE practices**. You can read and download it [here](#). This e-book is great for potential and current professionals in the labour market.

Also, we present Stimmuli for Social Change from Greece, who is leading the development of CICLO's **2nd e-book**, which will be **an adaptation and policy package with specific guidelines for the stakeholders** on how to integrate the CICLO training package in their normal training activities, how to utilize it as a VET component and how the modules and trainees can be accredited based on ECVET. This e-book will be ready **by the end of the Summer!**

Magenta Consultoría, Spain

Magenta Consultoría Projects S.L.U. is a consultancy company specialised in gender equality, social studies, and European projects. Magenta's philosophy is based on people and on the idea of contributing to build a better society. For that purpose, they develop different projects targeted to youngsters, women, vulnerable groups, and people at risk of social exclusion in order to promote their inclusion and help develop their skills. Besides that, Magenta offers tailored-made training programmes combining formal and non-formal education, language courses and mobility programmes. Through their work and programmes, daily they invest their efforts on promoting equal opportunities for all and the re-build of an equal and fair society.

Stimmuli for Social Change, Greece

STIMMULI is a social innovation research organisation working on projects focused on social impact. They design and develop new approaches, innovative projects, effective practices and tools to enhance social innovation. Their work aims at harnessing the power of collaboration between universities, non-profits, social enterprises, businesses and governments, to address pressing societal challenges more effectively and on a wider scale. Their vision is to support people to become powerful catalysts for social change. To achieve that, Stimmuli for Social Change designs and implements educational and empowerment projects that cultivate change making attitudes, inject entrepreneurial thinking and nudge behavioural shifts for more sustainable lifestyles. Their main activities are: 1) Learning design and assessment; 2) Training and capacity building, 3) Social Research and 4) Project Management.

Next steps

The next stage includes the development of CICLO **Multifunctional and Interactive Platform in the national languages of the project partners (Slovakian, Greek, Spanish, Italian, Portuguese)**, which will give the chance to employed and long-term unemployed people to develop basic job-related skills in circular economy and learn at their own pace. Our platform will be ready **by the end of July 2021!**
